Negative

IF A RESULT IS LISTED AS POSITIVE OR CARRIER, SEE INTERPRETIVE GUIDE FOR FURTHER GUIDANCE.
Physical Attributes:

Physical Attributes results are currently not available.

NOTE: The above listed disease and physical traits can be breed specific and are possibly found in the affected breed. However, it is possible that other breeds may test Positive or Carrier for the screened tests. Please refer to the Interpretive Guide included with this test for a detailed definition of the test and listing of the commonly affected breeds.

Non-Premium tests are processed by The Equine Genetics Lab at Texas A&M University and/or DNA Diagnostic Laboratory d/b/a Shelterwood Labs in Timpson, TX.
Premium Tests are processed by International Genetics, Inc in Freeport, The Bahamas.

Breeding Terms for GCH Ch. Dickendall Ironore Bluefish 'Blue'

Stud Fee: \$1000

- All breedings are guaranteed to produce a litter. A litter shall be considered a litter, if at least two live (2) puppies are whelped.
- The stud fee is payable at the time of the breeding. If the bitch fails to produce a litter, 1 rebreed will be given within 2 years. If the original stud is no longer available for service, the bitch owner may choose any other stud dog, with an equal stud fee, owned by Dickendall Labradors. If the original bitch is no longer available to fulfill the breeding, another bitch may be substituted. There will be no refunds of stud fees.
- The owner of the bitch will be responsible for any expenses pertaining to shipping dogs or chilled semen. These expenses include shipping kits, FedEx charges, Airline Counter to Counter, and shuttle service to the airport. These expenses are payable at the time of the breeding.
- After a litter is whelped, breeder will send a completed AKC Litter Registration Form to Dickendall Labradors for signature of the Owner of the Sire portion of the form. Dickendall Labradors will then forward forms on to the AKC. If you prefer, a fast and easy way to complete a Litter Registration is online from the AKC Web site.
- The owner of the bitch will contact CLONE: (phone 610-458-5888; fax 610-458-1102; Web site: www.cloneusa.com; e-mail cloneusa@aol.com) to arrange for cooled semen shipping kits to be sent to Dickendall Labradors prior to the breeding time. Accurate timing is the most critical factor in the success of breeding via shipped semen. Guessing and using prior breeding times for a bitch is a waste of everyone's time and money. Please contact a good reproduction veterinarian for progesterone level testing.
- It is suggested that the owner of the bitch create their own FedEx account. It is very simple to do and facilitates shipping. To open your free account, go to the FedEx website.
- Once you have puppies on the ground, if you would like your litter listed on our litter page, send an e-mail with your name, contact info and what you have available.
